### **Registration Guidelines**

Students and parents should select classes wisely and carefully during the registration process as staffing and resources are impacted by these selections. Listed below are some criteria you should use to make these wise choices.

1. Review high school graduation requirements.
2. Review college entrance requirements.
3. If you are an athlete, you will also need to review your selections with regard to the NCAA Clearinghouse guidelines.
4. Check all course offerings and carefully read the descriptions of those classes you are interested in taking.
5. All students are required to sign up for a total of 6 credits. Students in Music, Newspaper, Yearbook, and Student Government can have an additional credit. All students **must** enroll for a minimum of **3 core subjects (English, Social Studies, Science, Math, or World Language)**.
6. **Do not sign up for classes you do not intend to take next year.** Schedule changes are very difficult to obtain because the Master Schedule is built on student requests.
7. Students testing below grade level in reading or math will automatically be placed in a supplemental reading or math class.
